attend. H. T. MOORE, Comdr.

R. H. LONG, Adjutant.

FRATERNAL MEETINGS. BICKNELL

Testing County's Right to Make Appropriations for Park.

Whether the Board of Supervisors have the right to appropriate county money for the upkeep of Kapiolani Park will be definitely decided by the courts, a test case having been instituted through the filing of a petition for writ of mandamus and the issuing of the writ.

The test case is based on the refusal of the County Auditor to allow the payment of an account of \$325 due the Pacific Oil Transportation Co. for 240 barrels of oil supplied on contract for road work in Kapiolani Park, the account having been regularly passed by the Supervisors. This refusal resulted from the opinion of the County Attorney submitted to the Supervisors and the resulting case is instituted through agreement of the County Attorney, the Attorney General and the Park Commission.

The alternative writ of mandamus served on the Auditor reads in part as follows: "To James Bicknell, Esq., Auditor of the County of Oahu. Territory of Hawaii:

"You are hereby ordered to issue a warrant on the Treasurer of the County of Oahu, Territory of Hawaii, in five Dollars, or in the event of your failure so to do that you be and appear before me at my courtroom in the Judiciary Building, Honolulu, ten Alakea and Hotel streets. Visiting days after service hereof upon you, then and there to show cause why you have not done so."

This case is of the greatest interest to the public, as it arises out of the question of appropriating county money for the aid of the public schools against the legality of which the County Attorney advised the Supervisors. The appropriations for Kapiolani Park were cited as a parallel, drawing the other adverse opinion from Mr. Douthitt. In the event of the courts not agreeing with the opinion of the County Attorney in this one matter a test case in a school appropriation is not improbable.

The order for the issuance of the writ has been signed by Judge Lindsay, and the matter will be carried at once to the Supreme Court. ---

Meets every first and third Tues-BY INTER-ISLAND

A libel against the American schoon. er Kauikeaouli for the sum of \$4670 was filed in the Federal court on behalf of the Inter-Island Steam Navigation Company yesterday. The claim is for salvage on the schooner and her cargo, towed in to the Hilo harbor

The libel recites that on March 11 the schooner was drifting helplessly about 20 miles off the Kona side of South Point, on the coast of Hawaii, a dangerous place. Her main boom, mainsail and jib had been carried away in the furious storm which had been and was then raging. The schooner was in a position of peril and was being driven out to sea, with the danger

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief, as they deserve. Now many persons are, nevertheiess, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as WAMPOLE'S PREPARATION is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicival agents must be is plain to everybody. It is beyond price in Insomnia, Anemia, Weakness and lack of Nervous Tone, Poor Digestion, Lung Troubles and Blood Impurities. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfe, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstruc-

tive." It is a remedy that can

fford to appeal to its record

and represents the science and

knowledge of bright and aggres-

bottle convinces." At chemists.

of being lost. That by the skill and care of the steamer Kaiulani and her crew a tow-line was passed to the schooner and she was towed for seventern hours and brought in safety to The Kanikenoull is of 140 tons gross

elster and is valued at \$2500, and nd as cargo 1700 bags of A. No. 1 ugnr valued at \$5840.

An order for process of attachment nd monition was issued by Judge Dole, and Frank L. Winters, deputy C. S. Marshall has gone to Hilo to serve the papers on John Dower, master of the schooner. The owner of the libeled vessel is down as John Doe.

COURT NOTES.

A petition asking that Helen Keoiki be appointed administratrix for the estate of Hulukaalani deceased, from Opupele Levi, sister of the deceased, was filed in the Territorial Court yestitioner is the only heir.

Argument was heard yesterday morning before Judge Lindsay in rethe estate of Antone Rosa, deceased. an effort to establish the status of Jas. Hoare as a bona fide creditor of the estate, his claim being for the sum of \$600. R. B. Anderson, of the firm of Ballou & Marks, appeared on beand the executor. The matter is to be submitted on briefs to be filed within the next two weeks,

In the presentation of petition by before Judge Lindsay yesterday, the court approved of the expenditure heretofore made by the executor for the support and maintenance of the minor children, amounting in all to favor of Frederick G. Miller, in the \$368.75. An allowance was ordered paid sum of Three Hundred and Twenty- to the widow for the further support of the children of \$50 a month.

Ejectment proceedings have been begun by Maria Gaspar against Mary E. Low and Yin Kin, the papers being returned yesterday. The plaintiff claims that the defendants have unlawfully taken possession and converted to their use one and one-tenth acres of land at Kapaloa, Pauoa valley, which she wants handed back to her along with \$500 for damages. The case will come up at the April term.

ELKS' MINSTRELS THURSDAY NIGHT

New songs and end men's business are being prepared by the members of the Elks' Minstrels for their repeated show on Thursday night, which promises to be the best of the three. The best parts of the program already presented are to be retained and for those who have not seen it the closing scene should by no means be missed. As an artistic piece of stage picturing it is alone worth going to see, while the rest of the program has been well worked up to it. A good advance sale of tickets has already been made.

LUMBERING

Work in the Koa Forest to Be Carefully Carried On.

"All the work of timber cutting on the lands of the Bishop estate in Keauhon district, where the big koa forest terday. The estate consists of two is, the timber rights for which are belots at Pearl City. Ewa, and a lease- ing leased by a new corporation, is to hold interest at Auwalolimu. The pe- be done according to the best expenadvice we could get," said Frank B. Dodge yesterday. "There is no intention whatever of allowing anyone to go The principal matter dealt with was there and skin the country of lumber.

"Further than that, the work to be done there is being done under the recommendation, strongly urged, of the Superintendent of Forestry of the Terhalf of Hoare and Messrs, Ashford ritories. What is to be done will be and Watson for the other creditors along the lines of scientific forestry and under strict regulations provided in the agreements of lease.

"A year and a half ago the trustee. R. H. Trent, executor for the estate of the Bishop estate were approached of Thomas Christie, joined in by Liz- by lumbermen for a license to cut on zie Christie, widow of the deceased, these lands. We applied then to the Board of Agriculture and Forestry for the services of a forester to visit the kon forest and advise us what to do. R. S. Hosmer, the Superintendent of Forestry, therefore accompanied me to the district and we spent three days in the wood, going thoroughly into the situation. On the basis of his report, further negotiations with the lumber men were entered upon.

HOSMER'S OPINION.

"Mr. Hosmer gave us a full report on the best methods of handling our lands there and recommended that the lumbering operations should be proceeded with, provided the work was done under methods that would provide for the protection of the young trees and certain restrictions put in the agreement. These restrictions include the preservation of all trees under 24 inches in diameter, the protection of all standing timber from damage during the operations, the taking of all possi ble precautions against fire and provide that all work is to be done under the careful supervision of an inspector to be appointed by the trustees.

"Much of the work contemplated will be done on dead and fallen timber, which it will be of great advantage to have cleared out. Some or the very best samples of koa timber we have have been taken out of dead trees, which have been lying on the ground no one knows how long. Long enough to become covered up with brush and moss, at any rate. Some logs have been uncovered six feet through and measuring from forty to fifty feet along the clear stem, all in good condition. The removal of these fallen trees will give the young growth a chance to develop.

LOCAL CAPITAL.

"The lease we are contemplating is for a fifteen-year term and covers 12, 000 acres, coming into effect on January 1, 1907. From reports and estimates gathered it is expected that fifteen million feet of lumber will be cut under the license. "All the men interested in the lease

are well known Honolulans and all the capital is to be raised locally. One of the provisions in the agree-

ment is that the small koa grove near the Volcano is to be left as an attraction to tourists. No lumbering operations will be carried on nearer than two miles from the volcano, extending back from there for seven or eight "There are other koa tracts in the

islands which it would be a distinct advantage to have cleared out in the same way as is contemplated with this one. Scientific forestry does not destrey the forests, and it would mean the using of much valuable timber which is now only going to waste, while the growth of the young trees would be helmed."

A condemnation suit will probably e brought to secure a water supply for the town of Lahaina, which has a \$30,000 water works system without any water. The Kanaha stream is all used at present by the land owners along it, the Pioneer Mill and the Lahainaluna Seminary. By instituting a suit, Superintendent Holloway expects to bring all the claimants for water together, when a satisfactory division can be made.

THE EASY OIL.

Scott's Emulsion is "the easy oil"—easy to take, easy in action. Its use insures deliverance from the griping and nauseating sensation peculiar to the raw oil. Nobody who has any regard for their stomach thinks of taking cod liver oil in the old way when Scott's Emulsion is to be had. It is equally certain that no one having a regard for their health will accept a cheap emulsion or alcoholic substitute for Scott's Emulsion. It fulfills ev-! Est of B P Bishop by trs to Polly ery mission of cod liver oil and more.
